

Product change notification (PCN)

Title / short description	Changes to the packing unit and packaging size of MKDSN 1,5 PCB terminal blocks.
Affected article category	PCB terminal blocks and PCB connectors
Change category	Packaging
Change number	CAA210096-00
Reason for PCN/PDN Revision	Packaging change

Purpose/objective of the change

As part of our ongoing improvement process, the Pcs./Pkt. and package sizes have been changed.

Detailed description of the change

As part of the ongoing improvement process, the packing unit and packaging size of the MKDSN 1,5 series is being changed.

For the new packing units and packaging sizes, please refer to the attached list "CAA210096 – Details Packaging".

The items will gradually switch to the new packaging concept between September 1, 2022 and September 1, 2023.

The new packaging will be indicated by an increase to the production batch on the label. In addition, a yellow sticker stating that the packaging has changed will be applied to the packaging during the transition period. Please also share this information with your colleagues who are responsible for quality control and incoming goods, and once switch-over to the new packaging concept is complete, please use the new packing unit in your system for future orders.

No changes have been made to the product. The technical performance data therefore remains unchanged.

Identifying characteristics

Production batch P/B on the packaging label

Start of Production (SOP)	-	Last Time Delivery (LTD)	-
Effective date (EOP)	2022-09-01	End of Service (EOSR)	-
End of Sales (EOS)	-
