Title / short description	FFKDS/H1-V1 rocker lever contour change
Affected article category	PCB terminal blocks and PCB connectors
Change category	Form and appearance
Change number	CAA220008-00
Reason for PCN/PDN Revision	Production process optimization

Purpose/objective of the change

As part of the ongoing improvement process, the appearance of the items listed above is being changed

Detailed description of the change

As part of the ongoing improvement process, the appearance of the FFKDS/H1-V1 rocker lever is being changed. The rocker lever will have an additional inlet (see drawing), but this will only be visible from the outside on some customer-specific versions without a cover.

This change means that the injection molding process will be more stable in future.

The technical data and external dimensions remain unchanged.

Identifying characteristics

Existing stock can continue to be used. Stock mixing is permitted.
