Change Detail	
Description of Change	TT Electronics is announcing that the NAS Series standard packing method is tape and reel or bulk and other non-standard tape & reel packing options are being taken End of Life, (EOL). A full list of affected part numbers can be found in Appendix 1.
Reason for Change	This change in packing options and end of life announcement is part of TT Electronics long-term strategy to optimize efficiencies and rationalize product lines.
Implementation Plan	The non-standard tape & reel options will go end of life with immediate effect. No Last Time Buy will be available.
Customer Impact	Product form, fit or function is unchanged, however non-standard tape & reel packing options will no longer be available. Refer to datasheet for details
Recommendations	Customers are advised that the standard tape & reel option will remain available as the standard packing method, please contact your local Sales / BDE team for assistance in selecting an alternative solution.

Appendix 1

Example of a Generic Part number

Applies to all part numbers with generic form, example:

NAS3-xxxtl / NAS3xxxxtLFB

where xxx(x) is resistance value

t = resistor tolerance
