# HARTING Product Change Notification

**PCN**

**Business Unit:** Electronics

**PCN/22/008/PM+MD**

**Product range:** Board connectors / DIN Signal + har-bus 64

**Date:** 2022-05-05

**Author:** Ansgar Thomas

**Title:** Design change on DIN 41612 type R female - External

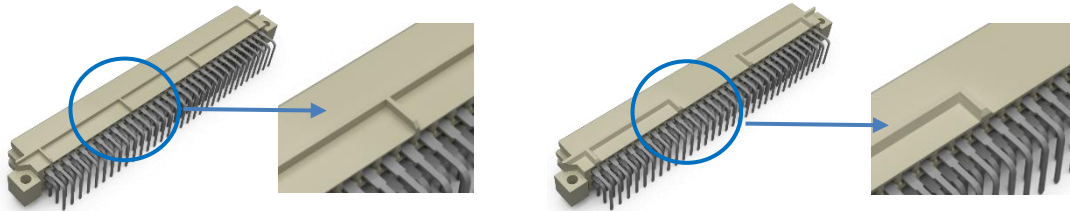

## Details of Product Changes

### 1. Concerned part number (see also attachment):

DIN type R female connector. For part numbers see list on next page.

### 2. Description of changes / news:

Design change on DIN 41612 type R female:

DIN 41612 type R female before ...

... and after change

The changes are purely concerning the top area of the isolation body. The ripples will be bigger and in the middle area of the connector the rip is removed. Background is an optimization of the molding process.

As part of the connectors can be used for reflow soldering process, we introduced a bigger flat area which allows to pick up the connector with a snozle in automatic pick and place process.

### 3. Impact on product specification:

There is no impact on the product specification.

### 4. Scheduled date of implementation:

The change is planned to be started in production by 2022-12-01. Mixed deliveries can happen for a limited time.

### 5. Identification of change:

The revisionlevel will be increased by 1. Details per part number see list on next page.

### 6. Data sheet (optional):

The Data sheets will not change. The type sheets will be updated shortly before the change and will be available in ebusiness.
