

Product change notification (PCN)

Title / short description	SACC-***-PP type 2 M12 push-pull device connectors supplemented by type 1 version in accordance with IEC 61076-2-010 (3-way contour)
Affected article category	Connectors
Change category	Function, Form and appearance
Change number	CAB210066-01
Reason for PCN/PDN Revision	

Purpose/objective of the change

M12 device connectors in push-pull design are now compatible with mating connectors with standard thread, push-pull type 1, and push-pull type 2

Detailed description of the change

The M12 device connectors with push-pull external locking will also be equipped with the contour for push-pull type 1 in future. This will allow cable connectors with standard locking thread, push-pull type 1, and push-pull type 2 to be plugged into and locked in the M12 device ports. The M12 push-pull device connectors with external locking will then also be equipped with the 3-way contour. All M12 device ports with push-pull external locking in the socket version are affected by this change.

Identifying characteristics

Start of Production (SOP)	-	Last Time Delivery (LTD)	-
Effective date (EOP)	2022-12-01	End of Service (EOSR)	-
End of Sales (EOS)	-		

Short-term change (< 6 months) or discontinuation (< 12 months), due to:
