Title / short description	Lettering field redesigned for MSTB 2,5/..-STF
Affected article category	PCB terminal blocks and PCB connectors
Change category	Form and appearance
Change number	CAA210133-00

Purpose/objective of the change

Standardization of lettering fields

Detailed description of the change

The construction of new injection molding tools for MSTB 2,5/..-STF with 2-pos. ... 8-pos. will be used to adapt the lettering fields to match the design used by other MSTB 2,5/...-ST connector families. A visual comparison of old / new is provided in the attachment. The external dimensions, technical data, and approvals remain unchanged. The existing tools will continue to produce the old lettering field. This will gradually be replaced with the new version over the coming years.
