

Customer Notification Letter

Expertise Applied | Answers Delivered

Issue Date: July 20, 2022

ID: CNL 0014

Dear Valued Customer,

This notice is to inform of an additional PPA (Polyphthalamide) resin source for MEGA 32V fuses and Single ZCASE 32V products.

Description:

- In addition to the actual supplier, Littelfuse will be introducing an additional PPA (Polyphthalamide) resin source for MEGA 32V fuses and Single ZCASE 32V products. Littelfuse will be able to use any of the two suppliers. This will have no impact on the Form, Fit, or Function of the materials.
- Second Source of Resin.

| <u>Characteristic</u> | <u>Current</u> | <u>Second Source</u> |
|-----------------------|-------------------|-------------------------|
| Polymer | PPA | PPA |
| Brand Name | AMODEL AS-4133 HS | ZYTEL HTN52G35HSL BK083 |
| %FG | 33% | 35% |

- Impacted Materials: See Excel spreadsheet “CNL 0014 - Additional PPA resin source for MEGA 32V fuses and Single ZCASE 32V products” for details of part numbers.
- Validation and test results will be available and shared accordingly upon request.

Reason:

- As part of our process to maintain capability and capacity on standard product lines sold to multiple customers.
- This action is being taken to protect our customers against supply disruptions.

Target Dates:

- Target implementation date for production will be September 19, 2022.

What You Need to Do:

- No action is required from the customer side.
- If needed, please provide any feedback or questions by August 15, 2022, after which time we will assume no concerns related to the notification on your behalf.
