

Title of Document: Request for Change	Issue No. G22-01252	Rev. 1
Customer:	Issue date: February 21, 2022	
Title subject: Regarding our connectors using PBT resin material	Revision date: August 19, 2022	

It is informed that the PBT resin material made by Mitsubishi Engineering-Plastics Corporation (hereinafter referred to as "MEP") used in our products will be changed to successor resin material of the same manufacturer and grade.

1. Target product and Part number

See appendix.

2. Contents

The PBT resin material used in our products will be changed to successor resin material of the same manufacturer (MEP) and grade.
 According to this change, the UL Yellow Card registration information of the material manufacturer remain unchanged.
 In addition, the part numbers of the target products remain unchanged.

3. Reason for the change

Because of the production of the current resin by MEP has been terminated and in order to ensure a steady supply of material, this measure shall be taken.

Your thought understanding and consideration would be very much appreciated.
