

Issue Date: November 2, 2022

ID: CNL 0019

Dear Valued Customer,

This notice is to inform you of an additional metal coil source for MIDI products.

Description:

1. In addition to the actual supplier, Littelfuse will be introducing an additional metal coil source for MIDI products. Littelfuse will be able to use any of the two suppliers. This will have no impact on the Form, Fit, or Function of the materials.

- Second Source of Metal Coil.

<u>Characteristic</u>	<u>Current</u>	<u>Second Source</u>
Material Common Name	Sn Plated Copper 110	Sn Plated Copper 110
Material Composition	99.9% Cu	99.9% Cu

- Impacted Materials: See Excel spreadsheet “CNL 0019 - Additional metal coil source for MIDI products”.
- Validation and test results will be available and shared accordingly upon request.

Reason:

- As part of our process to maintain capability and capacity on standard product lines sold to multiple customers.
- This action is being taken to protect our customers against supply disruptions.

Target Dates:

1. Target implementation date for the additional metal coil source will be February 6, 2023.

What You Need to Do:

- No action is required from the customer side.
- If needed, please provide any feedback or questions by December 2, 2022, after which time we will assume no concerns related to the notification on your behalf.
