Title / short description	M12 with spring-cage connection (Push-Lock) changing from SPEEDCON to M12 standard thread
Affected article category	Connectors
Change category	Form and appearance
Change number	CBF220071-0
Reason for PCN/PDN Revision	

Purpose/objective of the change

M12 with spring-cage connection (Push-Lock) changing from SPEEDCON to M12 standard thread

Detailed description of the change

The M12 connectors with spring-cage connection (Push-Lock) are changing from SPEEDCON to M12 standard. This change affects the entire SACC Push-Lock portfolio. This change is a strategic decision and will be implemented successively for all SACCs with SPEEDCON. In the future, the SPEEDCON connection will be replaced by the new standardized M12 push-pull connection in accordance with IEC 61076-2-010. From the user's point of view, there are no technical disadvantages (connection, dimensions, etc.). The approvals, such as UL, will also remain unchanged.
