## Product change and product discontinuation

Dear Ladies and Gentlemen,

for Murata it is self-evident in sense of partnership, to inform each concerned customer when products will be modified or discontinued.

With this letter we like to inform you of a production change and a discontinuation of several articles:

### Subject:

There are three notifications in one. Please see the different contents, based on Class I, Class II and Class III

Class	Change contents	Before Change (Current)	After Change	Change Point
I	1) Process of electrode 2) Production location	1) Electrode-less Plating 2) Murata Yokaichi Plant	1) Sputtering Process 2) Wuxi Murata in CHN	1) Design Products 2) Production location
II	Production Company for PTC pill	Murata Yokaichi Plant	Cooperative company in oversea (Not operated by Murata)	Production location
III	STOP Production	-	-	-

### **All concerned Murata p/n`s/series:**

Product series; Lead type PTC thermistors Ni-Ag plating electrode products

Product P/N: PTGL / PTRL series

### Reason for the discontinuation

We would like to reorganize our lineup of wire-wound power inductor as Dimension of LQH55PN\_R0 series is 5.8mm x 5.2mm, on the other hand market trend is 5mm x 5mm.

### Letter, including a response paper and the Shipping Records to your company:

**Contents of the changes and discontinuation**

Acc. the attached letter

**Technical Documents:**

**Dates/Schedule:**

Acc. the attached letter

**Request to you**

Please check the applicable box in the response paper regarding the production stop (Class III) and return us by Jan. 15th, 2015

Please feel free to contact with us if you have any special inquiry and/or questions.

If we do not receive any reply or requests from you by Jan. 15th, 2015, we will regard it as you have no further demand for these parts.

The production shifts are scheduled to June 2015.

Vielen Dank und mit freundlichen Grüßen

Thanks. With kind regards

Jan Urbanc
