Change of the PCB terminal blocks MKDSP 25 – AAA140047
Please forward this information to your electrotechnical departments!

Dear Sir or Madam

Due to our continuous improvement process, the cable guide (marked in red) was slightly changed. With it, the connection comfort was significantly increased. Conductors with ferrules have more space in the guide as well. The electrical features remain the same.

The new version will be delivered as of May 1, 2015.

Do you have any questions? You are welcome to contact our support engineer or the sales team in Blomberg.

Yours faithfully

PHOENIX CONTACT Deutschland GmbH
