**Change of the delivery form of USB female inserts and panel mounting frames –  
 AAB140072  
 Please forward this information to your electrotechnical departments!**

Dear Sir or Madam

Until now, the PCB with the USB female inserts USB type A and USB type B which is illustrated below has been delivered separately and has been inserted in the VS-A-F-IP67 panel mounting frame (order number 1653744) at the customer. The PCB could be inserted in both directions.

Due to production-related reasons, future female inserts on the PCB will be distributed and delivered together with the panel mounting frame as one article. Therefore, the article VS-04-BUA-BUB-F/IP67 with the order number 1653838 can no longer be delivered separately.

The technical features, plug-in behavior and dimensions will not be affected by this change.

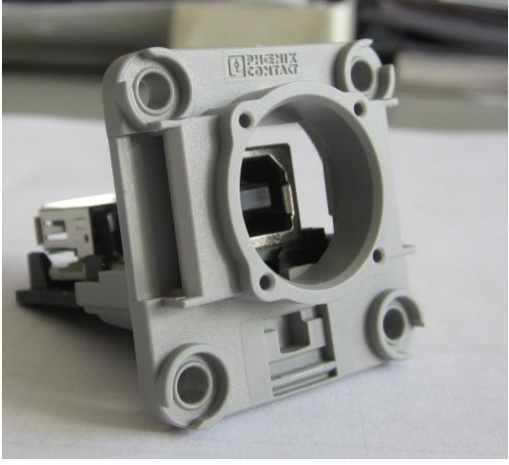

Old production status	New production status
