New Design In Stop Notice

Lead Type NTC Thermistor NTSD Series

Dear. Valued Customer

Thank you very much for your great and continued support for business with Murata.

This is the official notification that some of our products detailed below shall be out of sales promotion with the immediate effect.

Please review this, and refrain from designing the products affected into your new models and projects. Your understanding and support are highly appreciated.

1. Product Type, Customer/Murata/Alternative Part Numbers:

Product Type: NTSD Series

Please refer to the attached documents for detailed Part Numbers' information.

2. Reasons/Background:

NTSD Series, with its unique insulated lead structure, has been promoted since 1990's for general applications by sales team's strong support. However, its legacy design is getting difficult to meet market price and compliant with the latest environmental requirements, especially for high temperature solder including lead. Thus, PD has decided to discontinue NTSD Series, and started promotion stop announcement this time.

Also, please be informed that these parts will be withdrawn as per the schedule below.

The official notification of the Product Withdrawal will be submitted about one year later.

Last Time Order Due: Dec.,31,2016

End of Production: Mar.,31,2017

Last Date of Shipment: Mar.,31,2017

3. Contact Window:

Should you have any questions or concerns, please contact Murata Sales, Representative, or Distributor in your area.

Truly Yours. Thank you.

Murata Manufacturing, Co., Ltd.

Senior Manager / Thermistor and Variable Products Dept.
