

8th Jul 2015

To: Valued customer

From: Littelfuse Product Management

Subject: Through Hole Change of 2016L and 2920L

In order to improve process capability, through hole size of Littelfuse Polyfuse PPTC 2016L series and 2920L series will be changed. Below picture shows the difference.

Series	Original	New
2016L		
2920L		

Electric Characteristic, Pad Layout and Solderability will not be affected by this change.

Samples and reliability test report are ready upon request.

Timeframe

This change will be effective on 1st Jan 2016. Customer should expect to receive products with new through hole from 1st Jan 2016 going forward.

Should you have any query about this change, please contact our local Littelfuse Sales Office or Littelfuse authorized Distributors.

Best regards,

Stephen Li
