

## GDT Capacity Expansion

---

1 February 2016

To: Valued customers

From: Littelfuse Product Management

**Subject: GDT Capacity expansion**

Dear Customer,

Due to increases and volatility in demand for Gas Discharge Tubes, it has become necessary to expand capacity to maintain supply and lead-times in accordance with customer requirements.

As such, we have expanded capacity. We will be phasing in the use of components from this additional capacity starting from **the 1<sup>st</sup> May 2016**. This will be a running change in production.

This change will have no impact on both product performance and dimension.

In order to aid in tracking, parts from this additional capacity will **be marked with the symbol “○” or with lowercase letter.**

This will affect all of Littelfuse Gas Discharge Tubes.

Should you have any query about this change, please contact our local Littelfuse Sales Office or Littelfuse authorized Distributors.

Best regards,

**Stephen Li**
