

Product Change Notice

To: pk components – Kunde IK Elektronik

From: Raquel González

PCN date: 25/01/2016

Nº Pages: 1

PCN ref nº: Grease fluid change

Product family: PTs

Dear valued customer,

This is to inform you of the upcoming grease product change used on the above referred product family.

The current grease will be discontinued by our supplier however an alternative grease is proposed by the same supplier containing similar properties that have passed successfully all Piher validation tests performed, some of them even exceeding the test results with the current grease.

Tests have been conducted to each affected product family according to the current product specifications such as analysis of dosage, mechanical and electrical life, damp heat (with and without load), solderability, solvents, storage, temperature coefficients, temperature cycling, vibration, dithering, reflow, working temperature, cold and dry heat. List of tests performed on each product family and summary reports are available upon request.

We thank you for your business, and look forward to working closely with you through this product change.

INVOLVED ARTICLES: PT10RV05-10981-473-A2020-PM-S
