## EOL part Declaration

TO: Pk components GmbH

Date: 2018/1/19 (Fri)

Jamicon part: TKPR47M2GFBBME3

SPEC: TK series/0.47uF/400v/8x11.5mm/ 105C/2000hrs

EOL Reason:

Please noted our Al foil vendors do not produce and supply the aluminum foils for <1uf now. Since all our factories cannot get such materials now, we have to announce this EOL of <1uf capacitor no matter what the series or size.

Therefore this part is no longer supplying and this EOL inform is for the spec capacitance under 1uF parts only.

If you have spec re-cross requirement or other questions please let us know.
