

Product change information (PCN)

PCN No.:	ABF170070	Date:	15.02.2018
Product:	Change of imprint on sensor/actuator cables with M8 connectors		

Order No.	Designation
	See product list

Description of changes		
<input checked="" type="checkbox"/> Product appearance (fit)	<input type="checkbox"/> Product geometry (form)	<input type="checkbox"/> Product function (function)
Voltage specification on UL imprint reduced from 125 V to 30 V or 60 V		
<p>In future, the voltage specification on the UL imprint will be changed from 125 volts to 60 volts in the case of 3-pos. SAC cables and to 30 volts in the case of 4-pos. and higher-pos. SAC cables. This applies to SAC cables with M8 connectors that are approved according to UL file E221474. The previous value specified in the UL file did not correspond to the specifications of the M8 connector standard IEC 61076-2-104. Therefore, the above UL file was modified in cooperation with UL.</p> <p>Because of the modified UL file, the changes must be implemented immediately!</p> <p>The affected products with the new UL voltage value can be found in the attached product lists.</p>
