Product Change Notification

1. ECR #: 164636
Notification #: 338

2. Date of Announcement: March 15, 2018

3. Series:
• ASP - ASP

4. Part #'s Affected
• ASP-127677-01

5. Description of Change:

The insulator material is being changed from the PBT resin to the LCP resin which has been tested and verified to have improved mechanical performance. This will be a rolling change; you may continue to receive assemblies made from PBT material until stock is depleted.

6. Method of Identifying Change

The new LCP bodies will have a matte finish compared to the PBT gloss finish and deeper black color.

7. Reason for Change:

The change is being made to the product in order to improve manufacturability, increase knit line strength and improve retention. This change will also allow Samtec to remove a 100% visual inspection.

8. Impact of Change on Form, Fit, or Function:

• Function - Material Change

9. Projected Implementation Date: April 19, 2018

Disclaimer

Please review the change notification details listed above for specific information regarding the nature and timing of the change. While Samtec has taken precautions to ensure this change is not detrimental to your application, each application can be unique and therefore customers should consider the effect of the change on their specific application.

Samtec has taken efforts to ensure that all users of this product who have requested change notifications have been informed.
