Description of changes

<input checked="" type="checkbox"/> Product appearance (fit)	<input type="checkbox"/> Product geometry (form)	<input type="checkbox"/> Product function (function)
--	--	--

Product designation eliminated

As part of ongoing process optimization, the injection mold tool is being changed. The exchangeable insert with the VS... designation has reached its wear limit and will not be redesigned. Therefore, the lettering is being eliminated permanently with immediate effect.
This has no effect on product geometry and product function.

Expected initial delivery of the changed products	As of now
