

Product discontinuation

PCN No.	IAB180001	Date	11.04.2018
Product	RC... / SM...		

Description of changes

It is our objective to provide you with current products for your application. To this end, it is necessary for commercial or technical reasons to regularly check the product range and adjust the product lifecycle.

In this context, we discontinue the products listed below. They are turned contacts. Replacement products are available and also listed below. The existing crimping tools may still be used. However, please consider the changed crimping settings. This also applies to connectors that are supplied with crimping contacts. You can also find them in the attached product list.
