4M Change Notice

LXMS Series

Dear. Valued Customer

Thank you very much for your great and continued support for business with Murata. This is the official notification that some of our products' 4M Change will be proceeded as detailed below. Please review this, and confirm that you will expect to receive products after this 4M Change. Your understanding and support are highly appreciated.

1. Product Type, Changes, and Customer/Murata/Alternative Part Numbers:

Product Type: LXMS Series

Changes: Man Machine Material Method

Before Change	After Change
Resin sheet laminating (Epoxy resin)	Solid Resin (Epoxy resin)

Please refer to the attached documents for detailed Part Numbers' information.

2. Reasons/Background:

Purpose of this change is to standardize resin material.
 Production using current resin material is decreasing while production using new resin material is becoming mainstream.
 Since stable delivery and maintaining product price using current resin become difficult, we would like to change resin material to new one.
 This change notification does not bring any "murata product name change" and "specification change".

3. Products Before and After the Change:

Same design and same process control standard from current resin will be applied to the new resin product. There will be no change in product configuration, quality, and specification due to this change.

4. Change Schedule:

Last time order for current resin products: 12. 27, 2018
 Start receiving order for new resin products 12. 28, 2018
 Last production for current resin products 03. 31, 2019
 Last time Shipment for current resin products 12. 27, 2019
 Delivery of new resin product will start sequentially.

5. Contact Window:

Should you have any questions or concerns, please contact Murata Sales, Representative, or Distributor in your area.

Truly Yours. Thank you.
