Dear. Valued Customer

Thank you very much for your great and continued support for business with Murata. This is the official notification that our products will be discontinued as detailed below. 2. Reasons/Background:

We have been developing and producing the "SMR-element based" magnetic pattern recognition sensor for many years. However, due to the change in our market environment we are unable to continue doing business. Although we made our best efforts to somehow maintain this business, as we could not overcome the rising instability of the parts procurement triggered by the low demand situation, we had no choice but to discontinue these sensor products. Therefore, we appreciate your kind understanding and cooperation on our below described timeline toward the EOL, and provide us with the Last Time Order Estimation by the requested due date.

3. Shipment Status

Please refer to the attached shipping history.

Last Time Order Due (*): Sep.,30, 2020
Last Day of Production Sep.,30, 2021

* : Last Time Order is the subject to Minimum Order Quantity and Package Quantity.

6. For those customers who allowed Murata to use the mold equipment

Once we finish our production, how shall we dispose of the mold equipment which we no longer need? Considering that the mold equipment is financially under the possession of the customer, we appreciate your kind advice to close this issue.

7. Contact Window:

Should you have any questions or concerns, please contact Murata Sales, Representative, or Distributor in your area.

Truly Yours. Thank you.
