Change to the snap-on contour to improve the snap-on behavior		
<p>As part of the ongoing product improvement process, the following changes have been made to the terminal blocks of the PT 16 N-PE series: With a slight contour change to the snap-on foot of above products, we optimized the snap-on behavior for mounting on the 35 mm DIN rail. The snap-on contour at the plastic housing and at the stamp part have been adapted slightly.</p>		

Expected initial delivery of the changed product(s)	Starting from the beginning of July 2019
