### Notice of Production Discontinuance of Various Photo Flash Capacitors

Dear Valuable Customers,

We would like to take this opportunity to extend our heartfelt appreciation for your continued support and patronage to Rubycon Corporation.

Regarding several customized Photo Flash Capacitors; we are facing difficulty procuring material due to a drastic decrease of demand in the market. Specifically, the anode foil which is used in these products is a customized, specific, formed aluminum foil; in which there is no alternative source. Therefore, we find it necessary to discontinue the production as stated below;

1. Items to be discontinued:

FW Series

2. Discontinuation Schedule:

For those items, we will accept your last order till the end of 2020.

We appreciate for your kind attention and understanding. Please contact your local Sales office with any questions or concerns.

Yours Sincerely,

Naoki Irifune  
General Manager  
Rubycon Europe
