**LF PCN# A0180 Labeling Tri-Lingual Language Text Translations**

Dear Valued Customer,

Littelfuse Inc. would like to notify you of a change to our labeling processes on retail boxed and small-pack bulk items. The purpose of this change is to bring Littelfuse's labeling up to date with today's standards for tri-lingual language requirements for products that could be considered for retail consumption. Effective Jun 1, 2020, Littelfuse will add French and Spanish translations text to retail box and small pack bulk packaging labels. This change will not modify the information content and will be implemented as a running change. Affected part numbers are listed in attached document.

Please contact your local Littelfuse representative if you have any additional questions. We will be pleased to answer any questions you may have. Thank you for your continued support.

Best Regards,

*Bibiana Valdez*

Product Manager
