

 <b>HARTING</b> Pushing Performance	<b>HARTING</b> <b>Product Termination</b> <b>Notification</b>	<b>PTN</b>
--	---	------------

<b>Business Unit:</b>	Electronics	<b>PTN/20/004/C+N</b>
<b>Product range:</b>	Interface connectors / D-Sub	<b>Date:</b> 2020-04-21
<b>Author:</b>	Hartmut Klaus	
<b>Title:</b>	<b>Phase-out of D-Sub press-in - External</b>	

## Details of product termination

<b>1. Concerned part number (see also attachment):</b>
See attached list of part numbers.
<b>2. Reason for termination:</b>
<i>Over the last years the global sales of D-Sub versions with press-in termination has decreased year by year. Thanks to new manufacturing technologies it is possible to use reflow compatible solder versions (THR / SMT) for a lot of applications instead. An additional working step to press in the connectors separately could be cut in order to reduce the overall assembly costs.</i>
<b>3. Possible replacement products</b>
<i>It is possible to replace press-in connectors by versions with other PCB termination technologies, like wave or THR/SMT soldering. Please find the corresponding versions in our e-business or in our catalogue. In case of any questions our HARTING sales subsidiaries will support to define the right replacement for your specific application.</i>
<b>4. Scheduled date of:</b>
<ul style="list-style-type: none"> <li>1. <i>Last order: 2021-04-30</i></li> <li>2. <i>Last delivery: 2021-07-31</i></li> </ul>
<b>5. Data sheet (optional):</b>
