

Product change notification (PCN)

Title / short description	Change to MINI Analog items (MINI MCR-SL... / green) / removal of the ATEX zone 2 and EAC-Ex approvals
Affected article category	Measurement and control technology
Change category	Documentation, Marking
Change number	CCK200180-00

Purpose/objective of the change

Adjustment of the approval portfolio of MINI Analog items (MINI MCR-SL... / green) to market demands

Detailed description of the change

Due to the availability of the successor product family MINI Analog Pro (MINI MCR-2.../ gray), which, along with ATEX zone 2, EAC Ex, also contains an IEC-Ex approval, the approval program for the existing product family MINI Analog (MINI MCR-SL / green) will be adjusted. The self-attested ATEX zone 2 and EAC-Ex approvals will be removed from all MINI Analog products (MINI MCR-SL / green) by 2021-02-01. Market demands show that these are no longer required in the remaining applications of the MINI Analog (MINI MCR-SL / green) product family. The respective MINI Analog Pro (MINI MCR-2.../ gray) or MACX Analog items (MACX MCR-.../gray) can be used as 1:1 alternatives for future applications in the Ex area. Moreover, these items will then be able to be imported into the Chinese market without limitations or additional approval requirements (no CCC-Ex obligations) from 2021-02-01. All other approvals, such as DNV GL, UL, BV remain valid.

Identifying characteristics

Start of Production (SOP)	-	Last Time Delivery (LTD)	-
Effective date (EOP)	2021-02-01	End of Service (EOSR)	-
End of Sales (EOS)	-		

Short-term change (< 6 months) or discontinuation (< 12 months), due to:

- Software / Firmware Bugfix
 Short-term delivery stop by supplier
 Short-term recall by supplier
 Force majeure
 Product improvement with customer benefits
 Others

Changed international market demands and necessary short-term compliance with Chinese approval requirements
