

## Product change notification (PCN)

<b>Title / short description</b>	Change to installed LEDs
<b>Affected article category</b>	Relay modules
<b>Change category</b>	Form and appearance, Production process
<b>Change number</b>	ACK170043-01

---

### Purpose/objective of the change

To be able to guarantee the reliable production of our PLC Interface product range in the future, the status LED has been changed from an SMD LED to a wired LED as part of a production process modification.

### Detailed description of the change

The status LED of the affected items will no longer be routed to the outside via a fiber-optic cable. A wired status LED will be installed instead. The LED color "yellow" remains unchanged.
