PCN Ref Nº: New external housing plastic material for the SM and SMC series

Dear valued customer,

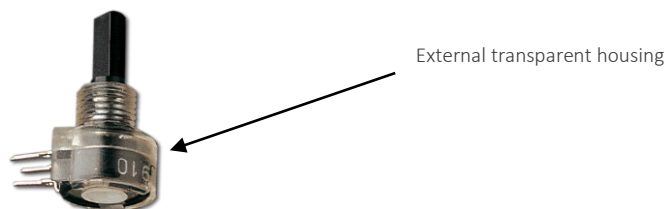

Please be informed of the upcoming product change to the referred product families.

The plastic material for the external transparent housing is being discontinued by our supplier. We are replacing it by an alternative material, that features identical properties. This new plastic has successfully passed all our validation tests.

Following reliability tests have been performed successfully:

- Damp heat
- Temperature cycling
- Mechanical life
- Torque nut Max
- Insulation

Visual, mechanical and electrical characteristics of the product remain unchanged.

YOUR AFFECTED ARTICLES: SM10V10-103A2020-TA

SAMPLES AVAILABILITY DATE: immediately

FIRST DATE TO SHIP CHANGED PARTS: when the current stock of external housings is finished

We thank you in advance for your kind cooperation and remain at your disposition for any further information you might require.

Sincerely,

Jose Ignacio Álava
Engineering Director
