

Product change notification (PCN)

Title / short description	Change to M12 pick-and-place pads
Affected article category	Connectors
Change category	Form and appearance
Change number	CAB190050-01

Purpose/objective of the change

As part of the ongoing improvement process, the design of the pick-and-place pads for the listed reflow items is being changed. By standardizing all the pads, we will thus be changing the end-face geometry to a round surface in future.

Detailed description of the change

The details of this change are illustrated in the attachment. The standardization of all our our pick-and-place pads will not alter the technical performance data of the connectors or contact carriers. This change only applies to the pick-and-place pad itself.

Identifying characteristics

All modified items can be identified by the incremented production batch.

Start of Production (SOP)	-	Last Time Delivery (LTD)	-
Effective date (EOP)	2021-06-01	End of Service (EOSR)	-
End of Sales (EOS)	-		

Short-term change (< 6 months) or discontinuation (< 12 months), due to:
