

Issue Date: May 18th, 2021

Dear Valued Customer,

This notice is to inform of a change in process location that affects finished good(s) you have purchased from Littelfuse.

Description of the Change:

- Littelfuse will be transferring the production location of mold tools and presses from their existing Piedras Negras site to a new building dedicated to molding operations.

Reason for The Change:

- This move is required to support current and projected growth, given capacity limitations of our current facility.

Effective Date of the Change:

- This change will be conducted as a running change, with production at the new site to begin no later than the last week of July 2021.

What You Need to Do:

- No actions are required from our customers. This move in location will not change fit, form, or function of the affected finished goods, nor the process by which they are manufactured.

If you have any questions, please feel free to contact your Littelfuse Customer Service Representative or your Inside Sales Representative. We appreciate your business and our continued partnership.

Sincerely,

Zachary Naughton
Global Product Manager
