Subject : End of Life (EOL) notification for Electric double layer capacitor

Dear Valuable Customers,

We would like to take this opportunity to extend our heartfelt appreciation to your continued support and patronage rendered to our company.

We are writing this letter to inform you of an upcoming end of life (EOL) on our Electric double layer capacitor.

The electrolyte used in our electric double layer capacitors will be discontinued due to a decrease in the trading volume of material manufacturers and difficulties of continuing production. Since this electrolyte is produced by a special manufacturing method and there is no alternative material, we cannot continue the production of our electric double layer in the future.

EOL product part numbers subject to discontinuation are listed on a separate sheet.

Replacement Product : None

Last time order date : 31<sup>st</sup>/Dec/2022.

For more details, please feel free to contact your local Rubycon sales office.

We apologize for any inconvenience caused and we sincerely ask for your understanding and cooperation.

Sincerely yours

Susumu Sakai  
Corporate Officer  
General Manager of Production DIV
