

Product discontinuation notification (PDN)

Title / short description	Discontinuation of the PLH 5 and PLA 5 series
Affected article category	PCB terminal blocks and PCB connectors
Change category	Discontinuation
Change number	IAA200008-00
Reason for PCN/PDN Revision	

Purpose/objective of the change

Discontinuation of the PLH 5 and PLA 5 series

Detailed description of the change

We aim to provide you with state-of-the-art products for your application. That is why it will be necessary to phase out some components from the product range from time to time for commercial or technical reasons. This correspondence is therefore notice of the discontinuation of the PLH 5 and PLA 5 series terminal blocks. Alternative items are available in the LPT 6 and LPTA 6 series. The technical performance data of these items is the same or better. The sizes and the pin layout in the start position are different. For a comparison of the series, refer to the comparison drawings in the attachment. As standard, the PLH 5 and PLA 5 series have zigzag pinning that starts at the front left (position 1). The pinning for the LPT 6 and LPTA 6 series starts at the rear left. If you require identical pinning, we will be happy to implement this for you as a customer-specific version. Other versions, e.g., printed items, can also be requested. The following schedule applies: Final order: January 31, 2023 // Final delivery: July 31, 2023
Thank you for your understanding. We look forward to continuing our successful cooperation.

Identifying characteristics

See attached item list for discontinued items

Start of Production (SOP)	-	Last Time Delivery (LTD)	2023-07-31
Effective date (EOP)	2023-02-01	End of Service (EOSR)	-
End of Sales (EOS)	2023-01-31		

Short-term change (< 6 months) or discontinuation (< 12 months), due to:
