

Product Change Notification

Date Issued :	August 30, 2022	PCN Number :	00001
Reason for Change :	Improved Global logistics		
Description of Change :	Standardization of barcodes to GTIN		
Reason for Short Notice :	Improved Global logistics		
Assessment of Change :	Barcodes		
Planned Implementation Date :	August 16, 2022		

New barcodes on all PCBite products from Sensepeek.

We have registered all our products and they now use licensed GTIN for improved global logistics. The barcode is still in EAN-13 format (JAN-13).

It will take time before it's completely fixed because of high stock levels on some articles with the existing barcodes but all kits produced(not shipped) from now will have the new barcodes. But again existing stock will remain for some time(months).and thus both old and new will co-exist.
