

Product discontinuation notification (PDN)

Title / short description	Discontinuation
Affected article category	Power supplies and UPS
Change category	Discontinuation
Change number	ICM240002-0
Reason for PCN/PDN Revision	

Purpose/objective of the change

Dear Sir or Madam, We pursue the goal of offering you technologically up-to-date products for your application. Technical or economic reasons sometimes necessitate product discontinuations, which you will find in this discontinuation notice from the product areas of power supplies, redundancy modules, uninterruptible power supplies, and batteries. Since the products from the product list are no longer available from EOS onwards, we ask you to switch to the replacement items.

Detailed description of the change

Power supply and redundancy module product category - TRIO-PS...:

The first generation of the TRIO POWER power supply has been on the market for over 15 years. The suppliers of some components have already discontinued the first important components, which cannot be replaced. We can no longer guarantee future production of the devices and delivery times that customers will find acceptable. With the new third generation TRIO3 POWER, we are offering an innovative solution and replacing the old generation.

Power supply and redundancy module product category - QUINT-PS...:

In the past, bundles were created from some QUINT-PS ... products, such as ...REDSET, consisting of two power supplies and an O-ring module, or ... TWINSET, consisting of two power supplies. These sets will be abolished and we will continue to sell the individual products. The QUINT-PS- 24DC/24DC/10 (2866378) item from the first generation of QUINT POWER DC/DC converters has been on the market for over 15 years.

We bundle the production capacities for the latest two generations of our proven DC/DC converters.

The successor 2320092 is suitable as a replacement for existing applications with regard to the terminal position.

Battery module product category - QUINT-BAT... and MINI-BAT...:

The QUINT-BAT family has been on the market for 19 years. This family will be replaced by TRIO-BAT, and therefore supplements the TRIO-UPS portfolio. There is still a comprehensive UPS BAT portfolio for the uninterruptible power supply units of the QUINT family.

Identifying characteristics

The material list contains the affected material numbers and the replacement items.

Start of Production (SOP)	-	Last Time Delivery (LTD)	2025-05-31
Effective date (EOP)	2024-11-30	End of Service (EOSR)	-
End of Sales (EOS)	2024-11-30		

Short-term change (< 6 months) or discontinuation (< 12 months), due to:
