

Product change notification – CBF230055_SACC_Crimp_P12 new metal Unlock

SACC Crimp Push-Pull (connectors for assembly)

Product change notification – CBF230055_SACC_Crimp_P12 new metal Unlock

General information – new metal Unlock (zinc die cast)

- Unlock mechanism is changed from plastic to zinc die cast
- All SACC Crimp connectors (in male) with outer Push-Pull will be changed
- The female connectors already exists with Unlock in zinc die cast (is already changed)

- Change affects optical fit and form because of new material
- Change does not influence existing approvals (RoHS, UL, ...)
- Product improvement:
 - Due to metal unlock the article is more robust (environmental conditions) and has better haptic at Lock/Unlock
 - V/C level on bag is increased (see article list)

Product change notification – CBF230055_SACC_Crimp_P12 new metal Unlock
