

Part Change Notice

PCN #25-007-a

5/28/2025 – updated 7/7/25

Company: KYCON, Inc.
305 Digital Dr.
Morgan Hill, CA 95037 USA
408-494-0330

7/7/25 Update:

Please be advised that the packaging for flat pin parts has changed from tubes to trays.

The new pack sizes and minimum order quantities (MOQs) are outlined below and detailed in the attached document.

Important Notes:

- The part numbers listed in the attachment refer to **price list part numbers only**.
- If you purchase **custom parts**, please follow the series pack size. However, MOQs for custom parts must be confirmed with your sales representative.
- Kycon currently has stock of round pin parts packaged in tubes, which will continue to ship until existing inventory is depleted. Please consult your sales representative when placing orders to confirm pack size.

Kindly update your system accordingly to reflect these changes.

SERIES	OLD PACK SIZE	OLD BOX SIZE	NEW PACK SIZE	NEW BOX SIZE
GLX-x-4x-xx	36/TUBE	Not listed	140/TRAY	2520
GLX-x-6x-xx	36/TUBE	Not listed	110/TRAY	1980

GLX-S-10xM-xx	90/TRAY	1530	90/TRAY	1620
GLX-S-8xM-xx	90/TRAY	1530	90/TRAY	1620

Re: **GLX-A; GLX-N; GLX-S series**

To enhance cost efficiency and improve performance, the above product series will transition from round pins to flat pins. The flat pin design offers increased contact surface area, contributing to better electrical connectivity.

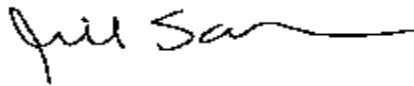

Key Information:

- **Functionality:** There is no expected functional impact as long as the product is used as intended.
- **Visual Inspection:** Users may notice visual differences during inspection
- **Implementation Timeline:** This change will be implemented gradually as existing inventory is depleted. Therefore, a specific starting date code cannot be provided at this time.
- **Identification:** Parts with flat pins will be marked with a “P” at the end of the date code.

Example: 2532P

If you have any questions or require additional documentation or samples, please contact your sales representative.

Thank you for your attention and continued support.
