

Product discontinuation notification (PDN)

Title / short description	Discontinuation of 15 UM articles
Affected article category	Electronics housing
Change category	Discontinuation
Change number	IAC260003-00
Reason for PCN/PDN Revision	

Purpose/objective of the change

Item discontinuation as part of portfolio streamlining

Detailed description of the change

We aim to provide you with state-of-the-art products for your application. Therefore, it is necessary from time to time to phase out selected components for commercial or technical reasons.

For articles with defined standard lengths, the product offering will be streamlined by transitioning to configurable material numbers (K#MAT). These K#MAT articles allow the required standard lengths to be ordered flexibly via configuration. As a result, the existing fixed-length articles will be discontinued accordingly.

All other articles listed in this PDN are discontinued as part of the regular portfolio streamlining process and follow the same rationale as previous discontinuations.

Please contact your sales team for information on suitable replacement articles or available configuration options.
