Title / short description	HESI lever fuse holder redesign
Affected article category	Terminal blocks
Change category	Form and appearance
Change number	PBE240196-00
Reason for PCN/PDN Revision	

Purpose/objective of the change

Redesign of the fuse holder lever interior to improve functionality, durability, and overall structural integrity.

Detailed description of the change

We are redesigning the interior of the fuse holder lever for HESI terminal blocks to enhance overall durability, and user handling experience of the fuse type terminal blocks. While the internal structure is being optimized to improve performance and reliability, the external dimensions and functional characteristics of the articles will remain unchanged. This ensures full compatibility with existing installations and maintains consistent operability for all current applications.
