

Product change notification (PCN)

Title / short description	Update of approvals and product marking for the PLC-INTERFACE series
Affected article category	Relay modules
Change category	Marking, Approval
Change number	CCK240027_E01-00
Reason for PCN/PDN Revision	

Purpose/objective of the change

This change ensures regulatory compliance and improves digital access to product-related documentation.

Detailed description of the change

The conformities and approvals applicable to the PLC-INTERFACE products are being adjusted. As a result, the product labeling (printing layout) of the PLC-INTERFACE articles will be updated accordingly. For relevant variants with an input voltage above 36 V, the CCC marking will be added. The EAC and UKCA markings will no longer be shown on the product labeling.

Corresponding updates to conformities, approvals, and related documentation will be implemented in the e-shop to ensure consistency between product marking and available digital information.

In addition, the QR code on the product will be updated to the DT4i code standard. The new QR code links directly to the product's Digital Twin, providing centralized and easy access to all relevant documentation, technical data, certificates, and declarations of conformity.

Identifying characteristics

V/C on packaging

Start of Production (SOP)	-	Last Time Delivery (LTD)	-
Effective date (EOP)	2026-07-05	End of Service (EOSR)	-
End of Sales (EOS)	-		

Short-term change (< 6 months) or discontinuation (< 12 months), due to:

- | | | |
|---|---|--|
| ☐ Software / Firmware Bugfix | ☐ Short-term delivery stop by supplier | ☐ Short-term recall by supplier |
| ☐ Force majeure | ☐ Product improvement with customer benefits | |
| ☒ Others | | |

The PCN duration is shortened to allow customers earlier access to digital product information.
