**Modification of the KGG-PC 4...-F... cable housings**  
**Please forward this information to your electrotechnical departments!**

Dear Sir or Madam

In the future, the cable housing will be delivered in a modified form. The lateral flanges will be reinforced by an outside plastic wall in the area of the screw. Thus, the stability is further increased. The external dimensions remain the same.

Enclosed please find a list of the products which you purchased in the past. The new design will be delivered as of the second quarter 2013.

Do you have any questions? You are welcome to contact our support engineer or the sales team in Blomberg.

Yours faithfully

PHOENIX CONTACT Deutschland GmbH
