Modification of the BC housing cover
Please forward this information to your electrotechnical departments!

Dear Sir or Madam

The plastic material of the cover will be changed due to production related reasons. The visual appearance and technical features are absolutely identical.

However, the modification can have an effect on the UL approval of the devices. In this case, an update of the approval is necessary. Please find an overview with the old and new UL material codes listed in the enclosure.

The new version will be delivered as of February 15, 2013.

Do you have any questions? You are welcome to contact our support engineer or our sales team in Blomberg.

Yours faithfully

PHOENIX CONTACT Deutschland GmbH
