## **Re: Product Discontinuation of NTC Thermistor ; NTSA series**

We thank you very much for your continuous business relationship regarding our Thermistor products. Unfortunately, we would like to discontinue a production of NTSA series at the end of Jun 2013. Because NTSA type have not satisfy RoHS/ELV compliant, and then, we prepared new product (NXRT type) that satisfy RoHS/ELV compliant. We would like to propose new product (NXRT type) as replacement from NTSA series.

Based on the above situation, we would like to ask you followings.

### **1. Concerned Product**

Discontinuation of NTC Thermistor : **NTSA series**

Please see attachment sheet for comparison sheet between current type and NEW type.

### **2. Schedule**

We would like to propose following schedule on this issue.

| <b>NTSA series</b>   | <b>NXRT series<br/>(Our proposal type for a substitute)</b> |
|--|---|
| <b>Final order intake : Until the end of Mar. 2013</b><br><b>Discontinue production : Until the end of Jun. 2013</b> | We have released this type on<br>Apr. 2012.                 |

Please return us with the signature by the end of Mar 2013.  
No feedback from you shall be regarded as your acceptance.

|                      |
