Product modification

Please forward this information to your electrotechnical departments!

Dear Sir or Madam

You purchase from us panel mounting frames of the HEAVYCON B and HV series. In the course of our continuous product improvement process, the previously used self-adhesive seals will be replaced by snap-in seals. Thus, when mounting the panel mounting frames, handling is considerably improved and time-saving. All technical and mechanical features remain unchanged.

Enclosed please find a list with the products that will be modified and are relevant for you. In the list, you will also find the respective date of the modification.

Do you have any questions? You are welcome to contact our support engineer or our sales team in Blomberg.

Yours faithfully

PHOENIX CONTACT Deutschland GmbH
