**Correction of the product change notification of June 07, 2013**  
**Change of the PST 1.3/...-5.0 pin strip**  
**Please forward this information to your electrotechnical departments!**

Dear Sir or Madam

Unfortunately, a mistake has slipped in the change notification. Please note that only the plastic bar at the pin guide will be thickened from 1.2 to 1.5 mm. The two millimeters of the rest of the bar remain the same. The compatibility with plug connectors is also further ensured. The technical features are not affected by this change.

Please accept our apologies.

The new version is **expected to be delivered as of December 7, 2013.**

Do you have any questions? You are welcome to contact our support engineer or the sales team in Blomberg.

Yours faithfully  
PHOENIX CONTACT Deutschland GmbH
