Product discontinuation

Please forward this information to your electrotechnical departments!

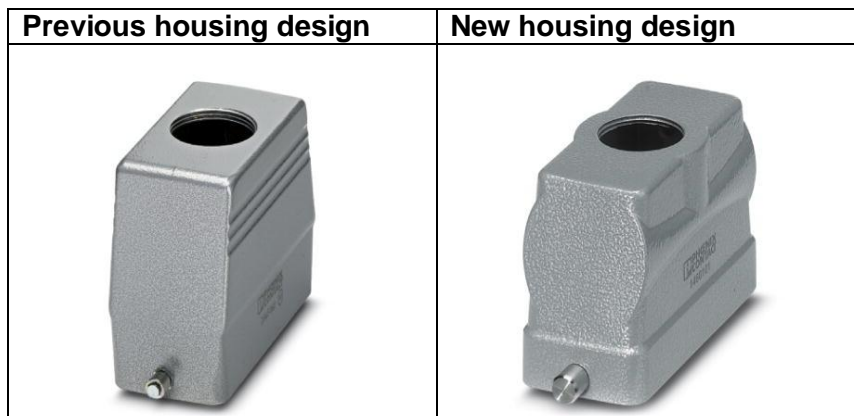

Dear Sir or Madam,

You purchase type B sleeve and coupling housings listed in the enclosed annex from our product range of heavy-duty square plug connectors HEAVYCON. Due to a complete revision of the housing series, we herewith inform you about the discontinuation of the above mentioned products.

The new housings mainly differ in their visual appearance. The new design furthermore offers an improved feel when installing and removing the housings. The new housings of the corresponding size and locking method are of course compatible to the previous versions. In individual cases, there might be slight deviations in the housing height.

The following images give you a first impression of the new design.

Example

You can **order** the discontinued articles **up to and including July 31, 2014**. The final delivery will be made until October 31, 2014.

- 2 -

All articles you purchased from us in the past that are now affected by the discontinuation as well the corresponding substitutes can be found in the attached list.

Do you have any questions? Our consulting engineer or the Sales team in Blomberg will gladly be at your disposal.

Yours sincerely,

PHOENIX CONTACT Deutschland GmbH

i.A. Tobias Wernke
