Product Change Notification for Low Voltage Series Varistor (PCN# 3594E)

Dear Valued Customers,

Littelfuse Inc. is pleased to announce a product feature upgrade relating to Low Voltage Series Varistor: the current ZA (V8-V150), LV Ultral MOV and RA series (with Hot Tin Dipped Copper Wire) will be manufactured using the Copper Clad Steel Wire.

After a complete qualification test, the qualification test result ensures that there are no changes to the electrical or dimensional specification. The complete qualification test reports are available upon request.

This change will be effective from April 7th, 2014; during this transition period, customers are expected to receive the ZA (V8-V150), LV Ultral MOV and RA series with the Hot Tin Dipped Copper Wire and/or Copper Clad Steel Wire until the Hot Tin Dipped Copper Wire inventory in our warehouse and the distribution channels are depleted.

From the publish date of this PCN, all the existing sample orders will be made by Copper Clad Steel Wire immediately.

List of affected Part Numbers:

20140111 Copper
Clad Steel Wire P

Please respond to us by February 10th, 2014 to acknowledge notification of this change. If we do not hear from you then we will expect that this change has been accepted and no further action is required. Thank you.

Best Regards
Johnny Chang
