2. Production Site Change

Current	New
Fukui Murata Mfg. Co., Ltd. (Murata Japan) Izumo Murata Mfg.Co.,Ltd. (Murata Japan)	Murata Electronics Singapore (Pte.) Ltd.

3. Background of the Change

In response to the MLCC demand increase in overseas market, we are in the process of factory re-organization and relocation of production items based on following aspects.

- Increase the production ratio at overseas factory in the mid-long term point of view
- Risk management measures in preparation for natural disasters
- Supply capacity expansion by multi production sites
- Production items relocation to make the best use of advantage of each factory

Most of GRM32 series demands comes from overseas customers, and is further expected to increase. We are going to respond to this challenge by expanding production capacity at Murata Electronics Singapore (Pte.) Ltd.

GRM32 series production at Murata Japan will be discontinued accordingly.

GRM32 series products are produced with exactly the same machine, raw material and process control in Japan and overseas factory, so quality and electrical characteristics of Murata Singapore GRM32 series are identical to those of Murata Japan.
